**\*Stains and Clear-Coats**

By signing this custom color match document, the customer understands the nature of stain on wood and the natural variation of wood. As a product of nature, the grain and color of wood can change dramatically from piece to piece. We will always try to grade the grain to the best of our ability, but achieving a perfect match is not possible and is part of the natural beauty of wood. Similarly, the stain will not absorb into the wood evenly, because the grain does not allow it.
